Zero Wall Recliner

WHR301 / 311 / 302

Compo WHR is designed as a super smooth zero wall recliner mechanism. It has the traditional 3 positions of - sitting, relax and recline. Some of our WHR features are:-

- Full reclining action with minimum wall clearance
- Beautiful epoxy painting which not only look nice but offer good resistance against corrosion.
- Rivets with nylon bush and washer to improve durability and also offers noiseless operation.
- The direct drive double lock mechanism ensures positive lock and eliminates ottoman droop.
- The elevated mid ottoman provides good knee support.
- Various options are offered to allow for various applications.

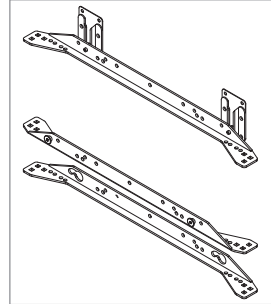

Model	Product Code
	<p>Pull Release opening mechanism</p> <p>Manual opening action using pull release mechanism. The pull release lever is reinforced with steel plate to improve durability.</p>
	<p>Big handle opening</p> <p>Manual opening action using big handle release lever.</p>
	<p>Electric Actuated mechanism</p> <p>The use of an electric actuator to control the movement allows ultra smooth and quiet operation. It also allows the mechanism to be operated at infinite number of positions.</p>

Chair Width Available : 17"-450mm, 18"-475mm, 19"-500mm, 20"-525mm, 21"-550mm, 24"-625mm
