Pull-out Sofa Bed Mechanism (SFB102)

Compo pullout sofa bed mechanism is designed for easy conversion from sofa to bed with just 3 simple steps. The back foam and seat foam becomes part of the mattress. As usual the mechanism is made to the exacting standard of Compo .

Conversion to bed in 3 easy step

<p>Pull out</p>	<p>Flip foam</p>	<p>Pull-down back rest</p>

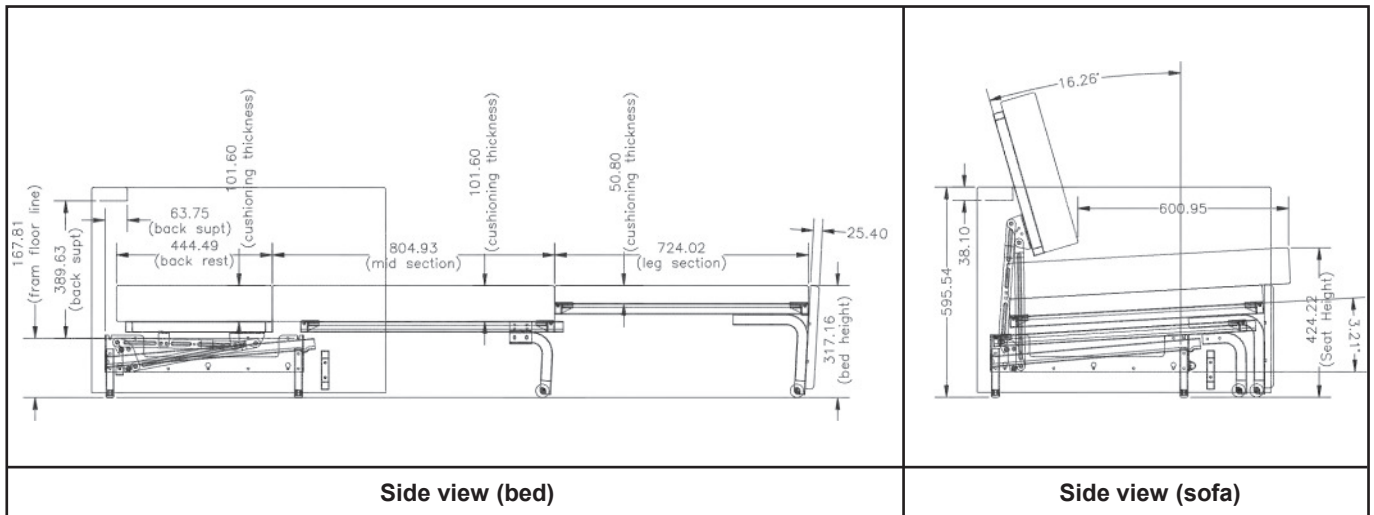

Features

<p>1- Birch wood slats provided a solid comfortable base to the sofa bed</p>	
<p>2- Seat frame is locked down when in closed position. this prevent the seat frame from sliding</p>	
<p>3- Back frame is tensioned with spring keep the back upright at all time</p>	
<p>4- Arm and back frame is mounted with KD bracket, making it easy for upholstery.</p>	
<p>5- The back frame is detachable from the chassis, allow the back to be flat packed for cheaper shipping</p>	

Technical Specification

Key Dimension

Frame & component

Diagram	No	Product Code	Description	Qty	
	1	H43-BFW 001	Back frame	1	
	2	JCBB-M6x1.0x20	JCBB bolt	4
