

Wall Bed

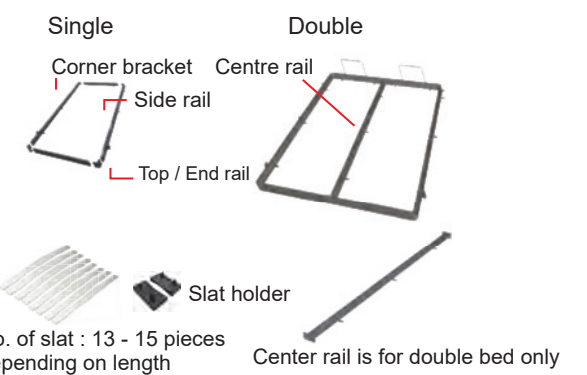

Extro Wall Bed is designed as a space saving product combining bed and table function into one single product. This product allows consumer to release previously unavailable space. It is a perfect product for modern but small living space in urban environment.

Key Features:

- The bed is design to open and close gently by any user. A specially developed gas lift allow this to happen.
- The table is design to stay flat through out the entire open/shut motion. You do no need to remove things on the table.

Bed Frame
