

Wall Bed Electric

WBE101

The Wall Bed Electric is an enhanced version of Compo wall bed mechanism. The addition of an electric actuator makes the wall bed even easier to operate. With the actuator and gas lift operating at the same time, the wall bed will be even safer to operate. As usual, this product is designed and made to the exacting standard of Compo.

Key Features:

- The wall bed is designed to be a knock-down unit and can be packed in a single box.
- With the electric actuator, there is no need to apply any force to open the cabinet. Even a small child can operate the wall bed while standing away from the cabinet.
- There is also a damper provided to reduce slamming problem when the door is closed.
